Subject: FW: Question for Mr Gomm

Good morning

I have attached a map which will help illustrate to the Inspector sites 1-4, their relationship to the development boundary and the allocated sites location. In answering the Inspectors questions, the map illustrates that site 1 was considered in the Sustainability Appraisal (1245) but rejected, site 2 is allocated (G109.1), site 3 is largely within the development boundary and site 4 is within the development boundary.

Kind regards,

Bryan Meredith
