Part One - Introduction

1. **Scope and Purpose**

   The Borough Council has adopted the model publication scheme issued by the Information Commissioner’s Office.

   This publication scheme commits the Borough Council to make information available to the public as part of its normal business activities. The information covered is included in the classes of information mentioned below.

   Information held by the Borough Council that is not published under this scheme can be requested in writing, when its provision will be considered in accordance with the provisions of the Freedom of Information Act.

   The scheme commits the Borough Council:

   - To proactively publish or otherwise make available as a matter of routine, information, including environmental information, which is held by the Borough Council and falls within the classifications below.
   - To specify the information which is held by the Borough Council and falls within the classes below.
   - To proactively publish or otherwise make available as a matter of routine, information in line with the statements contained within this scheme.
   - To produce and publish the methods by which the specific information is made routinely available so that it can be easily identified and accessed by members of the public.
   - To review and update on a regular basis the information the Borough Council makes available under this scheme.
   - To produce a schedule of any fees charged for access to information which is made proactively available.
   - To make this publication scheme available to the public.
   - To publish any dataset held by the Borough Council that has been requested, and any updated versions it holds, unless the Borough Council is satisfied that it is not appropriate to do so; to publish the dataset, where reasonably practicable, in an electronic form that is capable of re-use under the terms of the Re-use of Public Sector Information Regulations 2015, if they apply, and otherwise under the terms of the Freedom of Information Act section 19. The term ‘dataset’ is defined in section 11(5) of the Freedom of Information Act. The term ‘relevant copyright work’ is defined in section 19(8) of that Act.

   The classes of information will not generally include:

   - Information the disclosure of which is prevented by law, or exempt under the Freedom of Information Act, or is otherwise properly considered to be protected from disclosure.
   - Information in draft form.
   - Information that is no longer readily available as it is contained in files that have been placed in archive storage, or is difficult to access for similar reasons.

2. ** Obtaining Information**

   The Borough Council will indicate clearly to the public what information is covered by this scheme and how it can be obtained. Much of the information will be provided on our website. Where it is impracticable to make information available on our website or when an individual does not wish to access the information by the website, the
Borough Council will indicate how information can be obtained by other means and provide it by those means.

In exceptional circumstances some information may be available only by viewing in person. Where this manner is specified, contact details are provided. An appointment to view the information will be arranged within a reasonable timescale.

Information will be provided in the language in which it is held or in such other language that is legally required. Where the Borough Council is legally required to translate any information, it will do so.

Obligations under disability and discrimination legislation and any other legislation to provide information in other forms and formats will be adhered to when providing information in accordance with this scheme.

3. Charges

The purpose of this scheme is to make the maximum amount of information readily available at minimum inconvenience and cost to the public. Charges made by the Borough Council for routinely published material will be justified and transparent and kept to a minimum.

Material which is published and accessed on the website will be provided free of charge.

Charges may be made for information subject to a charging regime specified by Parliament.

Charges may be made for actual disbursements incurred such as:

- Photocopying
- Postage and packaging
- The costs directly incurred as a result of viewing information.

Charges may also be made for information provided under this scheme where they are legally authorised, they are in all the circumstances, including the general principles of the right of access to information held by public authorities, justified and are in accordance with a published schedule or schedules of fees which is readily available to the public.

Charges may also be made for making datasets (or part of datasets) that are relevant copyright works available for re-use. These charges will be in accordance with the terms of the Re-use of Public Sector Information Regulations 2015, where they apply, or with regulations made under section 11B of the Freedom of Information Act, or with other statutory powers of the Borough Council.

If a charge is to be made, confirmation of the payment due will be given before the information is provided. Payment may be requested prior to provision of the information.

4. Review of the Scheme

This Scheme will be amended periodically as necessary and a full review will be carried out every 2 years.
Part Two – Classes of information

1. Who we are and what we do

1.1 Council constitution and democratic structure

The Council’s constitution consists of a number of documents that, under the Local Government Act 2000, are required to be brought together and made available for public inspection. The articles of the constitution set out the basic principles that underlay the way the Council operates. The other parts of the constitution include details of the Council and the committees to which the Council has delegated various powers and the functions that are the responsibility of the executive; the terms of reference of the various committees and other bodies; the standing orders that regulate the proceedings at meetings; financial regulations; the code of practice for the procurement of works, supplies and services; codes of conduct for members and employees; the schedule for the payment of member’s allowances; and a description of the management structure of the Council’s workforce.

Website for online access: https://democracy.west-norfolk.gov.uk/mgListCommittees.aspx?bcr=1

1.2 Council directorate structure and responsibilities

The structure of our Council is organised around the main services we deliver. There are four service areas plus the Chief Executive’s office, each managed by an Executive Director. Each service is linked together by a Strategic Management Team, consisting of the Chief Executive and the Deputy Chief Executive. Names, job descriptions and contact details for each of the Executive Directors are given on the website, link: http://www.west-norfolk.gov.uk/default.aspx?page=24341

Link: https://www.west-norfolk.gov.uk/homepage/142/visit_in_person

We have also opened a number of Community Information Points in rural venues where members of the community can access a wide range of Council Services via the internet.

The Borough Council works in partnership with organisations in the local community, such as Parish Councils, Information Centres and even Public Houses to enable Community Information Points.

The local organisations provide a volunteer and a venue, whilst the Borough Council provides the equipment and training for the volunteer.

The creation of Community Information Points offers citizens an alternative method of contacting the Borough Council locally, which can save time, travel or telephone expense.

This requires the creation of a sustainable relationship with suppliers in the public, private, social enterprise or voluntary sectors to deliver services, carry out major projects or acquire supplies and equipment.

The Council also seeks to enter into collaborative arrangements with other Councils and public bodies to combine buying power, to procure or commission goods, works or services jointly, or to create shared services for the benefit of all parties.
