PARTICULARS OF PROPOSED DEVELOPMENT AND REPRESENTATIONS

[To be completed by Eastern Electricity plc.]

Application is being made

(a) for consent under section 37 of the Electricity Act 1989 to install or keep installed an electric line above ground.

(b) for a direction under section 90(2) of the Town and Country Act 1990 that planning permission for the development described below be deemed to be granted.

1. Particulars of proposed development. (These particulars should be accompanied by such plans as may be necessary to enable the local planning authority to identify the land affected by the proposals and to appreciate the nature and extent of the proposed development and by a copy of the environmental statement if the applicant has prepared one.)

Construction/Diversion/Keeping of an 33,00 volt overhead line in the parish of Pentney, Norfolk as indicated on drawing number NC/ 31/03/701202, subject to reasonable deviation as may be found necessary, such deviation not to exceed 50 metres on either side.

The overhead line will be of standard wooden pole construction.

2. Particulars of any representations or objections which have been made to Eastern Electricity.

3. Particulars of the applicants compliance with his duty under paragraph 1 of Schedule 9 to the Electricity Act 1989.

It is considered that the overhead line will not make a significant impact on the surrounding landscape as the existing 11000 volt overhead line is to be replaced by this proposal on the same route. In addition where the circuits cross the caravan park is intended to lay underground cable from Narborough Primary to the edge of the site.

It is confirmed that due recognition has been paid to the Company's obligation under Schedule 9 to the Electricity Act 1989
