Part II - Particulars of decision

The Council hereby gives notice in pursuance of the Town and Country Planning Act 1990 that **permission has been refused** for the carrying out of the development referred to in Part I hereof for the following reasons:

- 1 The Development Plan seeks to restrict new residential development in the countryside to those dwellings essential to agriculture, forestry, organised recreation, or the expansion of existing institutions and where it can be demonstrated that the need for the development could not be met within an existing settlement. The proposal does not meet this criteria and would consequently fail to accord with policies C3 and H6 of the Structure Plan and policy 8/6A of the Local Plan.
- 2 The Structure Plan Review seeks to restrict new residential development in the countryside to those dwellings which are essential to agriculture, forestry, organised recreations or tourist facilities or the expansion of existing institutions and the development could not reasonably be provided within a settlement and there are no significant environmental or access concerns. No justification for the proposed development has been advanced and the proposal therefore fails to accord with policies CS7, ENV1 and H8 of the Structure Plan Review.
- 3 No special need has been advanced which would, in the opinion of the Borough Planning Authority, outweigh the policy objections.
- 4 The access track serving the site is, in its present form, unsuitable to serve further development and to permit the development proposed would create a precedent for similar proposals in respect of other land in the vicinity of the site.

Part II - Particulars of decision

The Council hereby gives notice in pursuance of the Town and Country Planning Act 1990 that **permission has been refused** for the carrying out of the development referred to in Part I hereof for the following reasons:

- 1 The Norfolk Structure Plan Review 1998 Policy CS1(i) and The Norfolk Structure Plan policy CS1 and Local Plan Policy 4/11 require new development to preserve or enhance the character and appearance of Conservation Areas by having regard for the scale, grouping, spacing, materials and landscaping of existing buildings. Although the site is within the village it is not considered that the development proposed would enhance the form and character of the village. The proposal is consequently contrary to the provisions of the Structure Plan and Local Plan.
- 2 The proposed development is considered to be out of keeping with and detrimental to the character and amenities of the areas. In addition the proposal would be detrimental to the amenities of the occupiers of adjoining properties by virtue of its size scale and mass which would have an overbearing effect, and be likely to lead to overlooking of nearby properties.
