Environmental Permitting (England and Wales) Regulations 2016

# Part B: Application for a permit for a vehicle refinishing installation

## Introduction

### When to use this form

Use this form if you are applying for a permit to a Local Authority to operate a vehicle refinishing installation as defined in Environmental Permitting (England and Wales) Regulations 2016.

For the purposes of Section C of the form, a relevant offence is any conviction for an offence relating to the environment or environmental regulation.

You must pay the relevant fee to The Borough Council when submitting your application. For more information on fees, see section C.

### Which parts of the form to fill in

Please fill in as much of it as possible, and email or post to:

**B: The installation**

Please provide written information about the aspects of your installation listed below. We need this information to determine whether you will operate the installation in a way in which all the environmental requirements of the EPR Regulations are met.

**B1: Describe the proposed installation and activities and identify the foreseeable emissions to air from the process.**

Document reference:

--

**B2: Once all foreseeable emissions have been identified in the proposed installation activities, each emission should be characterised (including odour) and quantified.**

**Atmospheric emissions should be categorised under the following:**

- i) point source, (e.g. chimney / vent, identified by a number and detailed on a plan)
- ii) fugitive source (e.g. from stockpiles / storage areas).

**If any monitoring has been undertaken please provide the details of emission concentrations and quantify in terms of mass emissions. If no monitoring has been undertaken please state this.**

(Mass Emission - the quantification of an emission in terms of its physical mass per period of time. e.g. Grams per hour, tonnes per year)

**B3: For each emission identified from the installations' activities describe the current and proposed technology and other techniques for preventing or, where that is not practicable reducing the emissions. If no techniques are currently used and the emission goes directly to the environment, without abatement or treatment this should be stated**

Document reference:

--

**B4: Describe the proposed systems to be used in the event of unintentional releases and their consequences. This must identify, assess and minimise the environmental risks and hazards, provide a risk based assessment of any likely unintentional releases, including the use of historical evidence. If no assessments have been carried out please state.**

Document reference:

--

**B5: Describe the proposed measures for monitoring all identified emissions including any environmental monitoring, and the frequency, measurement methodology and evaluation procedure proposed. (e.g. particulate matter emissions, odour etc). Include the details of any monitoring which has been carried out which has not been requested in any other part of this application.**

If no monitoring is proposed for an emission please state the reason.

Document reference:

**B6: Provide detailed procedures and policies of your proposed environmental management techniques, in relation to the installation activities described.**

Document reference:

**B7: Attach a plan of the premises showing the location of:**

- a) the premises
- b) spray booths
- c) organic solvent containing material storage
- d) organic solvent containing waste storage

Document references:

**B8: Supply a description of the location and methods of storage of organic solvent containing materials.**

Document reference:

**B9: Supply certification of spray booth performance**

Document reference:

**B10: Are VOC emitting stacks\* at least 3m above the roof ridge height of buildings within 15 m of the stack?**

☐ Yes ☐ No

If "no" please provide a written plan for the construction, operation and maintenance of stacks emitting VOCs. *\*NB – All new VOC emitting stacks are required to vent VOC's at a height greater than 3m above the roof ridge height of buildings within 15 m of the stack.*

Document reference:

**B11: Provide details how the mass of VOC emitted and of paint solids used will be determined and recorded.**

Document reference:

**B12: Provide a written plan for the maintenance, inspection and replacement of extract air filters of the spray booth and abrasive blasting equipment plant.**

Document reference:

**B13: Provide a written plan for measuring particulate emissions from abrasive blasting equipment, using manual extractive testing methods.**

Document reference:

**B14: Provide a written plan for control of VOC emissions from spray gun testing and sprayout following cleaning.**

Document reference:

**B15: Provide a written plan for the control of VOC emissions from spray gun and equipment cleaning.**

Document reference:

**B16: Provide a written plan for the control of VOC emissions from solvent contaminated wipes and other wastes.**

Document reference:

**B17: State whether any structured environmental management system (such as ISO 14001, EMAS or BS8555) or a tailored system is being used or is planned, and if so what.**

Document reference:

**B18: Specify what training and instruction staff will be given to ensure that this Permit (if granted) is complied with.**

Document reference:

**B19: Provide an assessment of the potential significant local environmental effects of the foreseeable emissions (for example, is there a history of complaints, is the installation in an air quality management area?)**

Document reference:

**B20: Are there any Sites of Special Scientific Interest (SSSIs) or European Sites which are within 500 metres of the installation?**

☐

Yes

☐

No

If "yes", please give names of the sites

**B21: Provide an assessment of whether the installation is likely to have a significant effect on such sites and, if it is, provide an assessment of the implications of the installation for that site, for the purposes of the Conservation (Natural Habitats etc) Regulations 1994.**

Document reference:

**B22: Environmental Statements**

Has an environmental impact assessment been carried out under The Town and Country Planning (Environmental Impact Assessment) (England & Wales) Regulations 1999, or for any other reason with respect to the installation?

☐

Yes

☐

No

If "Yes" please supply a copy of the environmental impact assessment and details of any decision made

**B22: Additional Information**

Please supply any additional information which you would like us to take account of in considering this application.

## C: Fees and Charges

### C1: You must pay the relevant fee when submitting your application to The Borough Council of King's Lynn & West Norfolk.

You can do this by sending a cheque (made payable to BCKLWN) to:

**Environmental Quality Team, BCKLWN, King's Court, Chapel Street, King's Lynn, Norfolk, PE30 1EX**

Alternatively, if you want to pay by debit/credit card you can call our call centre on 01553 616200.

### C2: Annual charges

If your application is successful, you will also have to pay an annual subsistence charge. Please provide details of the address you wish invoices to be sent to and details of someone we may contact about fees and charges:

<b>Name:</b>	
<b>Address:</b>	
<b>Postcode:</b>	
<b>Email:</b>	

If you don't pay, your permit can be revoked and you will not be able to operate your installation.

### C3: Commercial confidentiality

Is there any information in the application that you wish to justify being kept from the public register on the grounds of commercial confidentiality?

☐ Yes ☐ No

If "Yes", please provide full justification, considering the definition of commercial confidentiality within the Regulations (See the appropriate general guidance manual).
