# King's Lynn Town Centre Action Plan

A framework and actions for a successful Town Centre

June 2014

## Foreword

Successful, vibrant, attractive town centres are a key factor in creating a "sense of place" amongst local communities and a pride in their "home town". However, traditional retail sectors) face a number of very significant challenges. This is particularly the case for medium sized town centres such as King's Lynn. The threats to the economic vitality and viability of town centres like King's Lynn include:

- Rapid and ongoing increase in market share of on-line retailing.
- Out of town centre retail parks such as those found on the Hardwick Road.
- Competing (larger) destination retail attractions such as Cambridge, Norwich and Peterborough.
- Major out of town centre supermarkets offering a "town centre in one store".

There is a growing consensus amongst retail analysts that to thrive in the future town centres must change and adapt. Nevertheless, town centres and indeed retail as a sector have always been dynamic and ever changing and King's Lynn itself has seen many changes over the years.

The Borough Council is committed to playing its part in helping to develop the undoubted potential that is evident in King's Lynn to successfully adapt by raising the quality and significantly broadening of the overall town centre 'visitor offer' (the mix of retail, culture, arts, leisure, public space and amenity) by maximising the potential of the town's retail, heritage and waterfront assets is crucial to retaining and enhancing the competitive edge of King's Lynn as a sub regional centre.

In response to this the Council has developed a Town Centre Action Plan which sets out how the economic potential of the catchment population of 200,000 people and the wider visitor markets can be realised in terms of spend and how additional activity and investment can be secured.

The Town Centre Plan draws together the priorities and plans set out in other policy documents, the Council's capital programme and activity of other partner organisations to one place so as to create a holistic approach to attracting more people to the town centre by facilitate amenity improvement, attracting investment in a wider range of retail, culture and leisure based economic activity, encouraging housing development, and creating quality public spaces. It will also contribute to attracting wider economic investment based on the quality of place and the range of amenities and the wider King's Lynn "offer" to residents, visitors and business.

This is not a new strategy. The Local Development Framework Core Strategy, in conjunction with the Sustainable Community Strategy and the evidence base of the Urban Development Strategy, sets out the Council's vision and objectives for King's Lynn Town Centre.

## A. The Town Centre Plan

In developing the actions and priorities for the plan we engaged with key stakeholders to understand their views on and priorities for the future of the town centre and establish where there are opportunities to work in partnership.

In summary, there was a consensus view that in order to respond to the future threats facing the town centre, the town should focus on;

- Utilising the heritage assets to broaden the overall Town Centre offer
- Enhancing the quality of the public realm and increasing activities and places for people to 'socialise.'
- Developing the markets to broaden the products and offer.

The plan covers the period 2014 to 2017

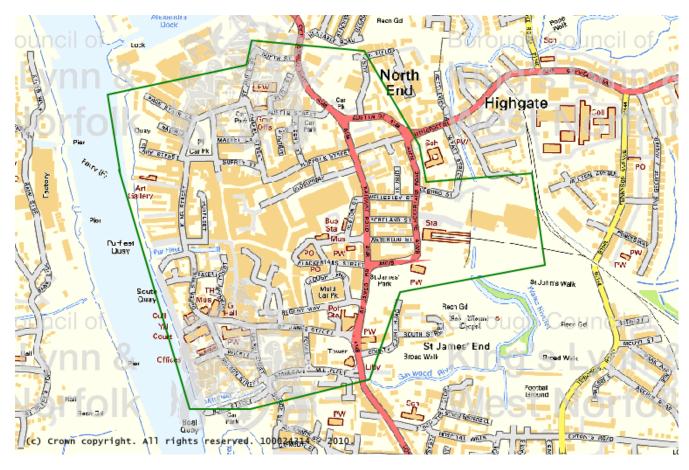

#### **1.** Themes of the Town Centre Action Plan

The Town Centre Action Plan has been summarised into 6 themes contained in the Urban Development Strategy;

- 1. High Quality Public Realm & Spaces: Creating variety and enhancing the quality and distinctiveness of public realm to improve the perception of the town.
- 2. Maximise Historic assets: Utilising the town's historic assets to improve the town's regional position in the tourism market.
- 3. Diversify the town centre offer: Increasing activity in areas other than the retail area, particularly along the waterfront and vary town centre provision.
- 4. A town that is easily accessible: Creating a pedestrian and cycle friendly town centre environment and enhancing public transport and vehicular access and facilities.
- 5. A place for people to live, work and socialise: Focusing residential development appropriate to the intimate nature of King's Lynn and in historic core and creating a lively and vibrant environment which meets the needs and aspirations of people of all ages.
- 6. Events & promotion: Marketing the town locally and regionally through a variety of small and large activities, events and promotional materials.

### 2. Town Centre Area

The study area is bound by Boal Street in the south, London Road/Blackfriars Road to the east, North Street in the north and the River Great Ouse in the west. This covers the main town centre zones of retail, leisure and heritage as well as the main car parks and transport interchanges.

# **B** Action Plan

**Theme 1: High Quality Public Realm & Spaces:** Create variety and enhance the quality and distinctiveness of public realm to improve the perception of the town.

|   | Actions   | Timescales                | Estimated<br>Costs                   | Funding Sources   | Lead Organisation(s)   |
|---|---|---------------------------|--------------------------------------|---|--|
| 1 | Enhancement of Saturday Market<br>Place   | 2014/2015                 | £640,000                             | Borough Council<br>Heritage :Lottery Fund<br>HLF Townscape<br>Heritage Initiative   | Borough Council<br>(Commercial Services)   |
