

Mintlyn
Crematorium

Child & Baby Memorials

Choosing a memorial to commemorate a young life can be very difficult. At Mintlyn Crematorium we understand that you may wish to take the whole process very slowly. One of our colleagues will gently guide you through the process of selecting a suitable memorial at a pace you are comfortable with.

We have a range of after cremation memorials specifically designed for babies and children, that can be placed in our dedicated memorial garden located within our tranquil Garden of Contemplation.

These specially designed memorials are supplied to you in perpetuity. Whatever journey life takes you on, you can be confident that the memorial in memory of your lost baby or child will remain in place without the worry of renewing the lease.

The communal garden has been created to provide a final and permanent resting place for the ashes of your baby or child. It provides a quiet and secluded location for family members to visit, and to take the time they need to remember the loss of their precious child.

Please feel free to contact us if you have any questions, we are more than willing to help.
