

Examiner's supplementary question (9 May 2023) and subsequent email exchanges between BCKLWN and the Qualifying Body (Old Hunstanton Parish Council), 9-21 May 2023

BCKLWN email to Qualifying Body (9 May 2023), with Qualifying Body response (21 May 2023)

Just a supplementary question from the Neighbourhood Plan Examiner (see email below). He is requesting further information regarding the preliminary consultations (pre-Regulation 14) consultations that were undertaken during summer 2019 (Consultation Statement p2/ Appendix 2: https://www.west-norfolk.gov.uk/download/downloads/id/7352/old_hunstanton_neighbourhood_plan_consultation_statement.pdf).

The Examiner is requesting the following information regarding responses to the Appendix 2 questionnaire (over and above Fete feedback set out at Appendix 3):

- No of questionnaires printed/ sent out

377 questionnaires were sent out which represents every property in Old Hunstanton.

- No of responses to questionnaires

The responses received represented over 60% of all questionnaires issued.

- Analysis of answers received.

I can confirm that overall analysis is covered within the information provided and is contained within the Neighbourhood Plan.

If this overall analysis is covered within the information at p4-6 (Church Flower Festival/ Fete, July 2018), please confirm? Otherwise, please review feedback from the 2019 preliminary consultation and collate this in a similar manner to that done for p4-6 of the Consultation Statement.

Please prepare a response on this basis, or clarify exactly what is covered at p4-6 of the Consultation Statement.

Finally, by way of an update, the Examiner is looking to finalise his report by next week, when he is aiming to circulate a draft to you and us for a fact-check. Please do not hesitate to get back to me if you have any further queries.

Regards and best wishes

XXXXXXX XXXXXX, Principal Planner

Examiner's supplementary question to BCKLWN, 9 May 2023

Hi XXXXXXX

Sorry, just another question (following on from the clarification letter responses).

The Neighbourhood Plan refers to questionnaires circulated in 2019 but neither the Consultation Statement, submitted evidence nor now the clarification letter response has provided any evidence of this.

Please could I ask you to ask the QB, on my behalf, the following:

"The Examiner has asked where the results (including how many questionnaires were sent out, when, how many responses were received and analysis of answers) of the 2019 questionnaire referred to on page 2 of the Neighbourhood Plan were published. Please can you confirm whether this information was published/is publicly available and I will pass on your response to the Examiner. Thank you."

NB – I am mindful that the QB do respond directly to me and am keen to retain the "boundary" with the LPA as "postbox," which you will understand.

Thanks

Best wishes

Nigel
