Part B

Please fill in a separate form for each document

Section 3: Representations

Which Document are you responding on?

Examination Library ref	Document name	Paragraph No(s)
F51	WEST WINCH 11 Paper	43-4

Summary of Comments:

Please be as precise as possible as to why you support or object to the evidence and/or any suggested main modifications to the Plan contained in the document, providing the relevant paragraph and/or policy number for each point.

Whilst I do understand the need for growth again, to proposal for the initial phase of 300 homes on the Development as laid out in the New Criterion section paragraphs 43-47 of the above referenced document. The e North Runcton, Setchey and West Winch together with road use already experience serious traffic delays and disruption, subjected to more. Firstly, in the form of construc residents needing to access the A10 by means of a roundabout construction opposite The Winch public house. Why has this been suitable option? It will simply create the same traffic on a daily basis at the roundabout between those of the Hardw Elizabeth Hospital. Indeed King's Lynn and its environs subject to serious delays and congestion. Whilst there r homes constructed in and around town in recent years and number of developments in progress, these have not been accom by a road system review. Why is this? The road systems ha overdue a major upgrade and overhaul and is surely a necessary ensure success of any major developments such as the one prop residents and businesses of the borough have to consistently inconveniences in going about their daily lives? Enough houses should be built on the Hardwick Green site until the WWF constructed and is in use.

(Continue on a separate sheet if necessary.)

Please note you should cover succinctly all the information, evidence and supporting information necessary to support/justify your comments.
