

UKSPF OUTPUT & OUTCOME DEFINITIONS: COMMUNITIES & PLACE

Number of rehabilitated premises

- Rehabilitated means remediated to a point of beneficial use.

Amount of public realm created or improved (m2)

- Public realm means the spaces between and around buildings that are publicly accessible, including squares, courtyards and streets.
- Created means new public realm, 'improved' means adding, renovating or repairing facilities with the aim of creating better public space. It does not include maintenance of existing facilities.
- Improved means adding, renovating or repairing facilities with the aim of creating better public space. It does not include maintenance of existing facilities.
- This indicator should not include parks and green/blue space

Amount of green or blue space created or improved (m2)

The total square meterage of green or blue space completed or improved.
- Green or blue space means any vegetated land, or water, within an urban area or public space. This includes: parks, public gardens, playing fields, children's play areas, woods and other natural areas, grassed areas, cemeteries, allotments, as well as green corridors like paths. It does not include paved spaces between or around buildings; for this, see indicators relating to "public realm".
- Created means physical creation of a green or blue space that did not exist previously and the space is open to the public.
- Improved means adding, renovating or repairing facilities and landscaping. It does not include maintenance of existing greenspace, such as grass cutting, pruning, and cleaning.

Number of local events or activities supported

An event refers to planned activities. These should fall into the below categories:

- Those related to: (1) Film, TV, Music, Radio (2) Heritage (3) Arts, Museums and Libraries.
- Other activities and events include, for example but not limited to, sports, volunteering, tourism and social action.

Number of volunteering opportunities as a result of support

This includes opportunities for people to volunteer on a regular basis, and opportunities for one-off volunteering.

- Formal volunteering refers to those who have given unpaid help via a group, club, or organisation: for example, leading a group, administrative support or befriending or mentoring people.

Increased footfall (number of people)

The increase in count of people (e.g., using an electronic people counter) within a given area over a given time (e.g. total people in a month).

Funded by
UK Government

Borough Council of
King's Lynn &
West Norfolk

Increased visitor numbers

Increase in number of visitor admissions to the local area, including markets, town centre, tourist attractions, green and blue spaces and cultural and heritage venues. The count of attendance should be based on tickets / entry figures, where applicable. The sample of venues tracked should remain the same over time, unless newly established venues are created during the reporting period which can be included.

Estimated carbon dioxide equivalent reductions as a result of support (Tonnes of CO2e)

Carbon dioxide equivalent (CO2e) covers a wide range of greenhouse gases (GHG) that have an impact on climate change resulting from the specific UKSPF intervention. Decrease in tonnes of CO2e should be measured using BEIS Conversion Factors for calculating resulting primary energy savings.

The estimate is based on the amount of CO2e saved in a given year, i.e., a projection of estimated savings of either one year following project completion or the calendar year after project completion through a methodology agreed by project appraisers.

Improved perception of facilities/ amenities

The number of individuals who report their perception of facilities/amenities as good or very good. As this is aiming to measure change, it will only be relevant where the user could experience it previously (i.e. the perception of facilities/amenities existed previously and isn't new). Measurement should directly relate to the perception change through the UKSPF project (e.g., the facilities/amenities impacted). Amenity/facility means any service contained within a physical structure, including, but not limited to, magistrates courts, police stations, town halls, cultural institutions, hospitals and public toilets.

Increased take up of energy efficiency measures (households)

The increase in number of households taking up energy efficient measures following support.

- A 'household', as defined in the 2011 Census is: 'one person living alone; or a group of people (not necessarily related) living at the same address who share cooking facilities and share a living room or sitting room or dining area', includes houses, bungalows, flats, and maisonettes.
- Energy efficiency means any measures which could improve a households Energy Performance Certificate rating. It is not required to shift the letter rating, only to make progress towards this.

Number of premises with improved digital connectivity

The number of supported premises where the broadband speed accessible is increased.

- Premises means a house or building, together with its land and outbuildings.
