Agenda

1. Apologies – see above.
2. Declarations of Interest (standing item) – none declared
3. Lido (Presentation by NCC/WSP/JBA) – Presentations were made by NCC, WSP and JBA on the back of their latest feasibility studies. The reports presented do not conclude that a Lido project would be infeasible. However further investigation would be required to progress matters. Discussion of a more specific proposal with environmental bodies would be necessary and the financial assumptions would need refining to see if payback period could be substantially improved.

There was a strong feeling that any scheme would be best incorporated into a wider 'Oasis' scheme as this was likely to enhance the revenue earning opportunities of a such a facility.

The HAG membership was Quorate and voted to seek to progress feasibility to the next stage.

Roberta to take this recommendation to NCC and Simon Ring to Borough so that a way forward could be agreed

RW & SR

It was also felt important that next stage of feasibility seek more specific feedback from the public.

4. Date of next meeting – 14 January 2024
