

Borough Council of Kings Lynn & West Norfolk

Public Sector Apprenticeship Target

Period 1st April 2022 – 31st March 2023

Public sector bodies with 250 or more staff in England had a target to employ an average of at least 2.3% (between 1st April 2017 to 31st March 2021) of their staff as new apprentice starts.

Although the council is no long required to publish this target we have decided to continue the practice as part of our commitment to transparency. The submission for the period 1st April 2022 to 31st March 2023 has been uploaded to the National Apprentice Service Portal.

This document provides a summary of the information submitted at the Data Publication Section of the return and has been compiled in line with the requirements of the Digital Apprentice Service.

Description	Result
Number of employees who were working in England on 31 March 2022.	531
Number of employees who were working in England on 31 March 2023.	557
