#### 2024-2025 Performance Management Report

#### **Summary**

The Performance Management report is produced to update Cabinet on progress against the Council's Corporate Strategy and key performance indicators. This report contains information on progress made against key actions and indicators for 2024-2025.

The overall performance of the Corporate Strategy has improved compared with 2023-2024, 19 of the actions are on target ( $\uparrow$ 3%), 7 actions are reporting minor issues/delays ( $\downarrow$ 3%) and 11 actions are reported as information only. A further 12 actions have been completed in Q4 taking the total number of completed actions to 30 in 2024-2025. Corporate priority, Support our Communities is currently recorded as 100% on target.

From the 64 performance indicators monitored for 2024-2025 compared to 2023-2024, 37 indicators have met or exceeded targets ( $\downarrow$ 5%), 6 indicators have not met target by more than 5% ( $\downarrow$ 4%) and 6 indicators did not meet the target by less than 5% ( $\uparrow$ 9%). Monitor only indicators remains at 13 and 2 indicators will be introduced when new data processes have been established.

#### Recommendation

#### Cabinet Resolves:

1. To review the Performance Management Report and comment on the delivery against the Corporate Strategy.

#### Reason for Decision

Cabinet should use the information within the management report to review progress on the agreed actions and indicators and satisfy themselves that performance is at an acceptable level. Where progress is behind schedule members can seek additional information to explain variances.

#### 1. Background

- 1.1 The Council's 2023-2027 Corporate Strategy was approved by Council on 23 November 2023, it sets out the broad framework for the period of the administrative term 2023-2027.
- 1.2 The priority areas are:
  - Promote growth and prosperity to benefit West Norfolk
  - Protect our environment
  - Efficient and effective delivery of our services
  - Support our communities
- 1.3 These priorities are further defined in 37 objectives and 58 actions that are reflected in directorate plans, service plans and individual targets set during staff appraisals. These actions define what the council will do to achieve the high-level aspirations set out within the corporate strategy.

#### 2. Management Report

- 2.1 The management report focuses on each of the corporate priorities individually, providing management team and members with an overview on the current status of projects and performance levels achieved by key indicators. A selection of people performance measures has been included to provide an overview of key employee data and features within the 'our organisation' section of the report.
- 2.2 Assistant Directors are responsible for providing the latest update on progress as well as rating each of the projects they are responsible for up to 31 March 2025. An overall summary of the actions and indicators is provided at the beginning of the report to highlight the current position for each of the priorities in place to support the delivery of the corporate strategy.
- 2.3 The 2024-2025 overall position of the Corporate Strategy is reporting 73% of the current projects are on track and progressing well, 23% have minor issues or delays and 12 projects have been completed within the target date. Trend arrows indicate the performance trend on the previous reported quarter.
- 2.4 Full year position of the Corporate Strategy for each of the corporate priorities compared to 2023-2024:

## 2.4.1 Support our communities: 34% improvement against target

No projects recorded with an amber or red status, indicating major or minor issues/delays.

# 2.4.2 Promoting growth and prosperity to benefit West Norfolk: 17% improvement against target

The following 3 projects have an amber status, indicating minor issues/ delays:

- Develop the Car Parking Strategy, produce a draft and adopt the strategy in 2024-2025
- Develop and commence implementation of an investment strategy for property assets owned by the council for income generation
- Review options in relation to the Hunstanton Masterplan and key council assets

#### 2.4.3 Protect our Environment: 6% improvement against target

The following project has an amber status, indicating minor issues/ delays:

 Develop and deploy a climate change assessment tool for council policies and projects

# 2.4.4 Efficient and effective delivery of our services: -33% reduced improvement against target

The following 3 projects have an amber status, indicating minor issues/ delays:

- Review and determine impact of government changes to Internal Drainage Board funding
- Review CIL governance arrangements
- Implement a performance management system to manage information to support decision-making
- 2.5 Full year position of the key performance indicators for each of the corporate priorities compared to 2023-2024:

#### 2.5.1 Protect our Environment: 7% improvement against target

The following 2 performance indicators did not meet the target by more (>) than 5%:

- >5% Total tonnage of food waste collected and treated
- >5% Total tonnage of mixed recycling collected and treated

# 2.5.2 Promoting growth and prosperity to benefit West Norfolk: 2% improvement against target

The following 2 performance indicators did not meet the target by more (>) than 5%:

- >5% Number of new homes delivered in the Borough to meet the housing need target
- >5% Number of new homes built through the Council's Major Housing Programme

#### 2.5.3 Support our communities: -13% reduced improvement against target

The following 2 performance indicators did not meet the target by more (>) than 5%:

- >5% Number of days to process housing benefit and council tax support changes of circumstances
- >5% Percentage of housing adaptations completed within time

# 2.5.4 Efficient and effective delivery of our services: -18% reduced improvement against target

The following 6 performance indicators did not meet the target by less (<) than 5%:

- <5% Reduce revenue expenditure by 5%
- <5% Percentage of supplier invoices paid within 30 days
- <5% Percentage of local supplier invoices paid within 10 days</p>
- <5% Percentage of Council Tax collected against outstanding balance
- <5% Council Tax Support Caseload shown as equivalent Band D Taxbase figures</p>
- <5% % of BID Levy collected

#### 3 Options Considered

3.1 None.

#### 4 Policy Implications

4.1 The Corporate Strategy sets the council's policy framework and as such is the council's primary policy document. All other documents and plans will need to take account of this policy framework when they are being prepared or refreshed.

#### 5 Financial Implications

5.1 There are no direct financial implications of this plan as its implementation is through the existing services, programmes and budget provisions already in place.

#### 6 Personnel Implications

6.1 None.

#### 7 Environmental Considerations

7.1 The corporate strategy includes a specific priority focused on protecting our environment including tackling climate change. This will be progressed through the delivery of the council's climate change strategy and action plan and through related plans such as the emerging Local Plan.

#### 8 Statutory Considerations

8.1 None.

#### 9 Equality Impact Assessment (EqIA)

9.1 This report is reporting on the performance of projects/workstreams across the council, and as such there are no direct equality considerations related to this report however, each project/workstream that is being reported on will have had an EqIA completed.

#### 10 Risk Management Implications

10.1 Progress with corporate strategy actions provides an input for risk management and may identify emerging risks and evidence improvement/ deterioration in risk scores and the delivery of mitigation measures. This will need to be factored into updates of the corporate, directorate and project risk registers.

#### 11 Declarations of Interest / Dispensations Granted

11.1 None.

#### 12 Background Papers

12.1 None.

#### **Introduction and Executive Summary**

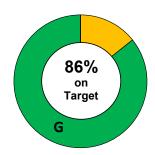

The purpose of the report is to demonstrate the performance of the Council for 2024-25 against the Council's Corporate Strategy and key performance indicators. It sets out the key activities to deliver our corporate priorities and summarises the measures in place by aligning key performance indicators to our priorities within the 2023-2027 Corporate Strategy and 2024-25 Annual Plan.

This report does not contain details of the numerous activities ongoing in each service area that also contribute to delivering important services which make a difference to the residents of West Norfolk.

#### Actions carried out in partnership with others (Information only)

#### **Project description and comments**

Continue to work with the Charitable Incorporated Organisation (CIO) and King's Lynn Town Board on delivery of the St Georges Guildhall project

The focus has changed to fundraising which has been progressing in Q4. From initial business plan assumptions on the CIO taking operational responsibility from March 2026 – this is likely to be later with a longer lead in period where the council could undertake some of the start-up activities prior to handover.

#### Continue engagement with schools and colleges particularly in relation to skills development

The primary heads network met on 13th March and a further meeting has been scheduled for June 2025. Feedback from the Heads is that they continue to value this network and the support provided by the council in organising the meetings. Dates are scheduled for the remainder of the year and it is intended to continue to run the network in lead up to LGR.

#### **Protect our environment**

To create a cleaner, greener, and better protected West Norfolk by considering environmental issues in all we do and by encouraging residents and businesses to do the same.

|   |             |                   |

#### **Actions carried out in partnership with others (Information only)**

#### Project description and comments

Continue to engage with Anglian Water and the Environment Agency on work being done or investigations made to improve sea and river water quality

The last two standalone years have shown significant improvement in water quality, although not enough to raise the designation which is based on a four year moving average. We remain committed to working with our partners on opportunities to make further improvements. Dog bin installation will commence prior to the start of the main season.

Continue to engage with Anglian Water (AW) and the Environment Agency (EA) on work being done or investigations made concerning the shingle ridge at Heacham and Hunstanton sea defences

Officers have met with EA colleagues and Consultants to discuss options for the project. Some background work has been completed, funding has been secured and work will start late summer. Further progress has been paused whilst officers have been redirected to deal with the coastal pollution response and recovery due to two ships colliding in the North Sea off the East Yorkshire coast.

Participate in a regional benchmarking exercise to understand our preparedness for new procurement requirements that consider economic, social, environmental and cultural factors to determine Scope 3 emissions

Procurement matters such as social value to be incorporated into the impact assessment tool referred to above.

#### **Project description and comments**

Continue to formalise the scope of the West Norfolk Air Quality project with Public Health (Norfolk County Council)

Progress has paused while officers have been redirected to deal with the coastal pollution response.

Work with stakeholders supporting the delivery of the Norfolk Net Zero Communities project in the parish of Marshland St James

A demonstration of thermal imaging cameras was held at the Farmers Market in Marshland St James on 16th February 2025. A case study has been developed for low carbon heating at the village hall and a decarbonisation plan on a local community building is being prepared by Community Action Norfolk.

### Efficient and effective delivery of our services

To provide cost-effective, efficient services that meet the needs of our local communities, promote good governance, and provide sustainable financial planning and appropriate staffing.

#### Project description and comments

Explore funding opportunities emerging through the County Deal for Norfolk and explore new ways of working with Norfolk County Council

Government have withdrawn the County Deal offer that was originally proposed. Conversations continue on future/alternative funding options.

## Support our communities

To support the health and wellbeing of our communities, help prevent homelessness, assist people with access to benefits advice and ensure there is equal access to opportunities.

| Feedback from the budget survey has been collated and shared as appropriate.  |           |  |

#### Actions carried out in partnership with others

#### **Project description and comments**

Ensure our need for better dentistry services and the release of funding for a new QEH remains a joint priority between ourselves and our partners.

We continue to work with QEH colleagues at Place Board and Health and Wellbeing Partnership to support prevention of ill health at the earliest opportunities, and we will also look at how the council can influence and educate children and adults on good dental health practices.

# Investigate with key stakeholders engaging the Institute of Health Equity (IHE) to make West Norfolk a Marmot place

The formal launch of West Norfolk a Marmot Place took place on 12th March and brought together a wide range of partners from across West Norfolk. First stakeholder meeting to be held around a topic to be agreed following a review of the launch feedback and data which will inform priorities.

#### Continue to work with Integrated Care Systems to support services delivered in the community

The council continues to work closely with ICS colleagues through attendance at Place Boards and various work groups addressing living and working conditions, health inequalities and admission prevention and discharge pathways at the QEH.

#### Position summary

Members should note that the indicators in relation to the number of voluntary leavers from permanent roles and the number of starters to permanent roles should be read in isolation from each other due to the time lag between resignation of one employee and start date for a new employee, which often spans any particular quarter.

- 1. Voluntary turnover rates show a slight increase in comparison to 2023/24, still within the anticipated turnover levels.
- 2. Number of voluntary leavers captures the number of employees who leave a permanent role in a particular quarter.
- 3. The number of starters to permanent roles will vary due to various factors, eg. appointments to any new posts which may not have been previously filled; appointments made to posts which became vacant in previous quarters which have taken time to fill and the notice periods required by new recruits which may delay their start date to a different quarter from when the position became vacant.
- 4. The average number of working days lost due to sickness absence by permanent employees has exceeded the annual target by an average of 2.15 days per employee. This is impacted by the number and length of long term sickness absence cases. Revised sickness absence procedures are at the final stages of consultation with unions, once finalised will be communicated to all staff and managers who have already attended briefing sessions to highlight the changes in approach that we are seeking to achieve. Tighter monitoring of sickness absence in accordance with the new procedures will be undertaken and more proactive management by managers will be required to address sickness absence issues during 2025/26.
- 5. Reports on the number of employees who have had a period of long term sickness within the year to date. It is not a record of the number of employees who are absent due to long term sickness at that point in time.
- 6. The average number of working days lost due to sickness absence by temporary employees is impacted by movement within this part of our workforce (for example, temporary employees who had taken sickness absence and are leaving our employment to be replaced by employees who have not had absence, or employees who were previously temporary moving into permanent roles).
